Volar

① Stockinet covering tips of fingers.

② Apply POP on the Palmar side of the hand.

③ Wrist back.
Place finger on the right position.
Let it set.

④ Can be short (length)
Maintain correct position.
PAIN indicates correct positioning.
Bandage (crepe).

Ulnar gutter

① Stockinet up to the tip of fingers.

② Apply POP covering 4th to 5th finger (Palmar to dorsum)

③ Use roll of crepe bandage for positioning. Wait for it to set. Push crepe bandage in.

④ Ulnar-gutter is more rounded. Apply crepe bandage once its set.

Scaphoid

Bennets

① Cut POP pieces to wrap around wrist and thumb.

② WRAP around.

③ Make sure to wrap around PIPJ.

④ Be mindful of correct positioning. Wrist back & 3rd finger to thumb.

⑤ Apply 2 layers of POP roll.

* Bennetts have same principle. Only difference is positioning (holding a wine glass) and POP applied over the thumb is higher.
